

**SHAKE WELL BEFORE USING**

**MICROBE-LIFT® SLUDGE AWAY:**

- Improves Aerobic and Anaerobic Digester Efficiency
- Can Significantly Reduce Waste Sludge Production in Biological Wastewater Treatment Systems
- Enhances Settling in Digesters and Clarifiers
- Reduces Gaseous Odor Production
- No Synthetic Chemical Constituents
- Works in a Wide Range of Temperatures
- Effective in pH Range of 4.0 to 10.0
- Accelerates Biological Organic Oxidation
- Non-Toxic, Non-Pathogenic and Bio-Available

MANUFACTURED BY  
  
 Providing Solutions Naturally Since 1976  
 CAPE CORAL, FLORIDA

ITEM #ANSSAG

☐ 1 GAL (3.78L) ☐ 5 GAL (18.9L) ☐ 30 GAL (113.6L) ☐ 55 GAL (208L) ☐ 275 GAL (1041L)

# MICROBE-LIFT® SLUDGE AWAY

Specially Formulated For  
**SLUDGE REDUCTION**

- Accelerates Breakdown of Bottom Solids, Surface Crusts and Floating Organic Solids
- Contains All-Natural Nutrients and Accelerators to Enhance Biological Activity
- Can Reduce or Eliminate the Need for Dredging
- Contains Most Micronutrients Required by Microorganisms

EXCLUSIVE DISTRIBUTOR  

MICROBE-LIFT® SLUDGE AWAY is a blend of humates and humic substances, and beneficial bacteria — an all-natural mixture that includes most biological compounds synthesized by living organisms, including plants. SLUDGE AWAY speeds up the microbial response to difficult-to-degrade organic matter, resulting in increased reduction in sludge volumes through rapid oxidation of many slow-to-degrade compounds, as well as an increase in biomass activity.

SLUDGE AWAY improves sludge reduction from 20% to 80% over historical system performance and provides reductions in final BOD, COD and SS.

**DIRECTIONS**

For solids reduction (wastewater and digesters), apply 2 ppm to 20 ppm, based on influent flow. For optimum performance, use with Microbe-Lift®/IND HI-COUNT as recommended by our technical staff.

**CAUTION:** Keep out of reach of children. Do not take internally. Avoid contact with eyes. Flush immediately if needed. Use gloves and safety glasses when handling spills. If contact is made, wash with soap and water. If swallowed, drink several glasses of water. Call a physician if any irritation persists.

*If it stinks and flows... we have the solution*
